Park Place Christian Church

## A Word from Rev. Alice Hupp

On June 17th I will be celebrating 38 years as an ordained minister! Wow! When I look back on that day in 1984, yes that does age me, I can still hear my preaching professor, Rev. Dr. Ron Allen, who preached the ordination sermon that day, say that there would be days I would get a phone call in the middle of the night asking, *Pastor, can you come?* And sure enough there were those calls. Not all of them have occurred in the wee hours of the night, and yet sometimes they come when I least expect them.

I remember, when I was in my church in Auburn, Indiana, I received a call that one of our young adults, Craig, (21) was involved in an industrial accident. He worked in a metal plating company. Someone had used bleach to clean out the tank and it mixed with the chemical in the tank to create a toxic gas. The other four young men in the bottom of the tank cleaning died. Craig tried to reach down to save them from the top, trying to pull them out but soon he too was overcome by the gases. He was alive long enough to become an organ donor.

I think about little Danzen, who at 7 drown at Possum Kingdom and how the members of Park Place jumped into action to be with his mother and family. We were up all night praying, hugging and crying with each other....or the time we got the call that David died in a car crash and how the church once again sprung into action to rally behind the York family.....and how just two short years later the church came to rally behind me when my family lost my niece Amanda in a single car crash just before her 19th birthday.

I remember so many saints who have touched my life throughout these years. Many have gone on to be part of the great cloud of witnesses...and I miss them all so much!

Seminary never prepared any of us for a pandemic! Who knew that we would need a class on how to maneuver church through such crazy times as these.

Yet I have had some amazing experiences in ministry....the missions we've tackled and the lives who have come to know Jesus through baptisms and confessions...and I'm so touched that in my 38 years, two people have gone into the ministry, Penny and T.J...and I have looked on as a proud parent.

Now, as we look into the future, we are seeing changes and challenges continue...but then again, isn't that's part of it? We are about to open an autism clinic and move into phase 2 of our playground and so much more. What a ride it has been....I can't wait to see what God has in store for us next!

## ALERT!

A "Remote Code Execution Vulnerability" was officially recognized by Microsoft on May 30th, 2022. It was given the catalog number: CVE-2022-30190. The issue occurs when a malicious actor exploits the Microsoft Windows Support Diagnostic Tool (MSDT), which is a legitimate tool used by Microsoft to allow computers to receive remote desktop support from authorized Microsoft technicians.

The vulnerability exists when MSDT is activated when viewing a website address (URL) embedded in an application such as Microsoft Word, Rich Text Document, or within an Email. The URL does not have to be clicked, only viewed within the document to create the vulnerability. With this access, an attacker can install programs, view, change, or delete data, or create new accounts on the computer in the context of the users' rights. For example, if a user was logged into a computer and using their administrator account, opening one of these infected documents could give the hacker full administrative access to the computer.

Because MSDT is an integral part of all Microsoft operating systems, this vulnerability applies to ALL VERSIONS of Microsoft Windows, including Windows 11. Microsoft was made aware of the vulnerability in April 2022, but they did not officially recognize the severity of the issue until the following month because the attack vector requires the user to interact with an infected document to create the vulnerability. As of this writing, Microsoft states that "Microsoft is working on a resolution and will provide an update in an upcoming release."

What can you do in the meantime? A temporary workaround involves making a backup copy of the registry key that controls MSDT, then deleting the key. After Microsoft issues a permanent fix, the key can then be restored from the backup copy. Temporarily deleting the key does not damage the function or operation of the computer, it only makes it impossible for a remote access session to be initiated. We have already applied this workaround to all the Church's computers, and I would like to offer the same service to each of you absolutely free of charge. Please see me after Worship Services or contact the Church office to pass your contact information to me. As always, if you have questions about any of your tech, I am always here to help!

## Our Best Prayer Partner

I don't know about you, but often I come to my prayer time and I find myself speechless. I can not find the words I want to express my heart to God. I lift up names and situations yet I can't fully say to God what I need, what I fear, or what I hope for.

In spite of this failing on my part, I still come to my prayer times daily. I take prayer seriously. If I say I will be praying for someone I feel a true obligation to follow through. Some folks I pray for daily. Some weekly. Some of my former youth have been on my prayer list for over 3 decades.

I can't explain exactly how prayer works, but I have experienced that it absolutely does work! I don't really know how the people that are not immersed in a praying community make it through the day/week/month. So, I also pray for situations, people I see, ambulances that pass my house on the way to the hospital.

While I have often prayed publicly and in groups, in general, I spend most of my time praying in solitude. It can feel somewhat lonely.

For some reason, I had never really thought of the implications of what Paul says in his letter to the Romans: "Likewise the Spirit helps us in our weakness; for we do not know how to pray as we ought, but that very Spirit intercedes with sighs too deep for words." ~Romans 8:26

Then, last year, I taught a 16-week series on Romans followed by my Life Group reading Romans together this past spring.

This verse (along with a few others) really stood out to me as I thought about my daily prayer life. Maybe it is perfectly OK for me to struggle for words because I have the best possible prayer partner: The Holy Spirit! My weakness is strengthened by the Holy Spirit reinforcing my heart and mind as I commune with God in prayer.

Again, I can not explain exactly how this works. But, I have full confidence it absolutely is what is happening as I pray.

What is your daily prayer life like? Do you have set times you pray? Do you feel alone when you pray? The Good News is that you have the same Best Prayer Partner that I have! Lean in with the Holy Spirit and open yourself up to God in new holistic ways because even when you feel weak the Holy Spirit will be sighing on your behalf in a way that goes deeper than words. Thanks be to God!

Peace and Grace Always, Charles Harrison
